### Clinic Update

The people of Bayonnais have experienced damage to their crops as a result of the hurricane winds and rain but there has been no loss of life as a result of the storms. The staff of the clinic is ready and able to help those who may experience physical problems. They are on the look out for any diseases which may result from the flooding.

Sidson continues to heal from his hip surgery, which was on July 27. He is thriving under the care of Brenda and Chuck McKay, with some help from his many friends. He is feeling very well and is looking forward to having his cast removed next month. After he completes physical therapy he is looking forward to returning to Bayonnais.
